## **HEALTH OFFICER'S REPORT**

The annual report for the Town of Lebanon for the past year shows that the town has been very free from serious communicable diseases, two cases of "scarlet fever", no diptheria but a number of cases of measles.

The co-operation of the teachers has lessened the spreading of infectious diseases in many cases, and the following year we hope to have better co-operation of the parents.

Harris B. Hazen, Health Officer.

---

## **REPORT OF MILK INSPECTION**

The same method has been carried out as in previous years in taking samples and inspecting stables and milk houses with the result that the people of Lebanon are getting a very satisfactory lot of milk none running below the statutory minimum of composition and show evidence of being produced under cleanly conditions.

W. B. Mowers, Milk Inspector.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the members of the Board of Education  
of Lebanon:-

Gentlemen:

It is my privilege to submit herewith my second annual report of the schools of Lebanon. Knowing that the members of the Board keep informed as to the work of the schools, I will make this a brief summary of the various activities that have taken place together with a few statistics in regard to the schools for the information of the general public. Following the precedent of last year the reports of the various departments are here combined in a single report.

### Attendance

Attendance to date throughout has been good. It can and should, however, be better. The most essential thing about a school is the pupil, and certainly maximum efficiency cannot be attained unless the pupils attend regularly. Most of our failures in school can be traced directly to irregular

attendance. In the matter of tardiness, Lebanon children are probably no worse than children in other towns. Most tardiness, however, if not all, is inexcusable and leads to habits of carelessness which are not easily corrected. Our average attendance to date is about 97 per cent.

### **Teachers**

Next to the pupil in order of importance is the teacher. After getting pupils to school it is essential that we have teachers qualified to teach. They must not only keep school they must teach school. Although the average salaries in Lebanon are a trifle lower than in similar communities elsewhere, for the most part we have efficient, qualified teachers. A large proportion, however, have had little or no normal training and though their long experience and faithful service may be very valuable, still, training and experience should go hand in hand, and to my mind neither can entirely fill the place of the other. An occasional summer spent in normal school by these teachers would greatly increase their value to the community. Teaching is becoming more complex, and only by constant reading and study can one hope to keep up to the rapid development of our schools.

### **Course of Study**

There have been practically no changes in the course of study this year. Our schools are on a sound educational program. Although we want schools up to date and progressive, changes are made only after these changes have been tried and tested elsewhere, and have been found successful. According to the State Department of Education, Lebanon Schools are among the best in the State.

Music and art have been extended into the rural schools and the results being obtained are truly remarkable. Pupils approach their music periods with great enthusiasm and apparently get much enjoyment out of their singing.

### **Special Activities**

Night School with a smaller registration has had a larger average attendance than last year. Work has been confined to; Americanization, English, Arithmetic, Bookkeeping and Typewriting. Spanish French and other subjects which have been given in other years have been dropped as being non-essential and too costly to the district.

Social and athletic activities have been well taken care of, thanks to the generosity of the trustees of the Carter Community Building and to the courtesy of Mr. Carpenter. Many of the activities which were formerly held in the Town Hall were allowed to be continued this year. Training received from such activities to my mind can be made much more essential than the ability to solve some complex quadratic equation or to remember some chemical formula. Is it looking too far ahead to hope for Lebanon a good school gymnasium and adequate playground facilities under the direction of an all-the-year-round physical director, who can not only coach athletics and direct gymnasium work to providing safe healthful recreation for the children of Lebanon. Activities of the Outing Club, initiated by Mr. Heistad, have proved exceptionally interesting and valuable. Through the kindness of Mrs. Fannie Bean and others, a place was provided for ski jumps and a toboggan slide which were constructed by the boys of the Mechanic Arts Department.

### **Building and Equipment**

Many repairs of a minor nature have been made on several of our schools. Conditions at the High School are still unsatisfactory, but with the completion of the new building, these difficulties will be removed.

Poverty Lane School and the upper grade room of the Hanover Street School were discontinued early in the fall because of small enrollment and the pupils are being transported to Scytheville and the School Street Building respectively.

A new milling machine purchased for the Mechanic Arts course has greatly helped the work of that department.

### **Financial**

Although school costs have increased tremendously in the past few years they have but kept pace with other costs. The annual cost per pupil in Lebanon for the year 1922-1923 was \$77.39 which is just about the average cost throughout the State.

One other thing ought to be noted:-that for the first time in many years the Lebanon School District (combined High School and Town Districts) is entirely free from debt, the last bond having been paid off February 7, 1924. This has been made possible only through the utmost care and cooperation on the part of all who have had in their charge the purchase and care of buildings, supplies, etc.

In closing may I express my appreciation to the members of the Board for their consideration and helpful advice; to the teachers for their splendid cooperation and spirit of service; and to all those who have helped to make the schools of Lebanon a success, and my second year as your Superintendent of Schools so pleasant.

Respectfully submitted,

Caleb H. Niles, Superintendent.
